Clarke and Mrs. Elizabeth Tyler. Klansmen were leaving the order and outsiders were not coming in because they felt that the continued silence of Clarke and Mrs. Tyler was due to their inability to successfully deny the charges made.

"In that connection I will say that, although repeated statements have been made to klansmen that one body and another of this order had investigated those charges and found them to be untrue, that since I have been in Atlanta I have spent about three hours' actual work in investigating for myself and have ample proof in my possession that they are true.

"The Washington Times, in its expose, didn't scratch the surface. I am now convinced that the reason they didn't publish all they found was simply because it was too nasty. "Concerning the Knights of the Ku Klux Klan itself. I say: It is all right on paper—a fine organization but the wrong people are now con-trolling and operating it. The peo-ple referred to are Edward Young Clarke and Elizabeth Tyler."

Japan Expected Voice Approval dawns. of 5-5-3 Navy Program Shortly.

> By GEORGE R. HOLMES, International News Bervice

"Out of Washington by New Year," was the aim of the delegates to the making parley swung into its fourth week today with its major purposes

On the surface of things today it appeared entirely probable that the ambition of the delegates would be re-alized, and that the holidays would see the departure of the big conference rsonages at least. China Problem Still Unsolved.

The problem of China, of Siberia and the final adjustment of the navol program laid down by Secretary of State Hughes on the opening day re-

With regard to the naval program Tokyo's answer is in the hands of Baron Kato, head of the Japanese delegation, and may be presented to the other powers at a secret meeting of the big three late today. Tokyo's answer is believed to be acceptance of the 5-5-3 capital ship ratio insisted upon by the United States, coupled with a reservation preserving the status quo of fortifications in the Pacific and a trade of some sort which will permit Japan to retain the Mutsu her later and most powerful dread

Chinese Greatly Helped, Belief.

With regard to China, the powers believe that most of what can be accomplished here has already been done by the adoption of the four Root principles which pledge them not to nibble any more at Chinese sovereignty and to respect the open-door policy of

The Siberian question, it is believed

can be disposed of in much the same way-through the adoption by the principal powers concerned of a set of principal powers concerned of a set of governing principles, the purport of which will be that they shall not take advantage of existing conditions to quietly appropirate Russian territory.

Great Britain will make a strenuous effort to lower the submarine tonnage of 90,000 tons, proposed in the American program, and also to the American program, and also to have abolished entirely the larger types of cruising submarines. American naval opinion is staunchly op-posed to the British plan, but whether the views of experts can prevail over the views of politicians is a question

that only the future can determine. Everyone Seems Satisfied.

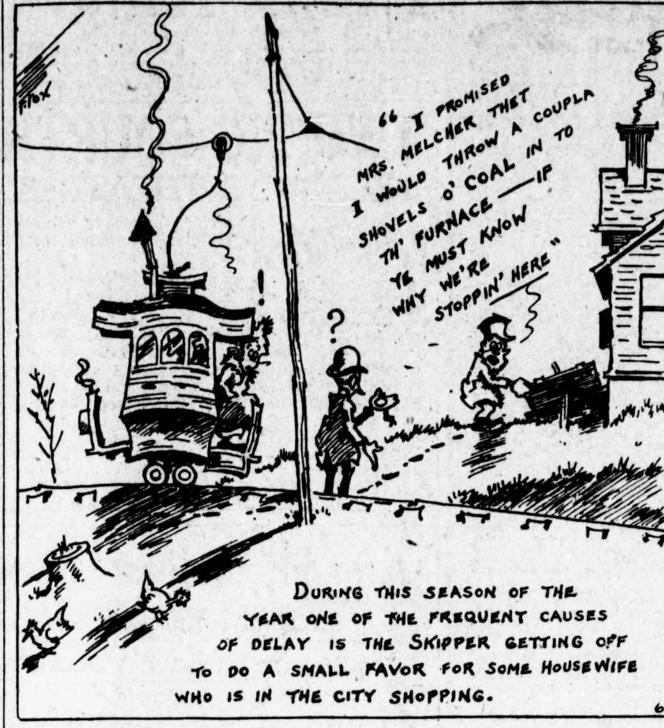

As matters now stand, it appears probable that everyone is in a fair way to be satisfied with the work of the conference with the exception of China. It is significant that officials have taken pains to point out in re-

It is possible that China may yet bolt the conference. A great deal depends, it is admitted, upon the state of popular feeling in China. A bolt would probably "save the faces" of the Chinese delegates with home folks, and at the same time would not necessarily militate against fulfillment of what the conference

already has pledged.
Should the Chinese delegates really leave, it is not improbable that the powers would combine in a statement of general principles toward China, and leave to a later conference, maybe a year hence, the dis-cussion of application of the policies promulgated.

Meanwhile, the Far East discussions were renewed today in secret by the committee of the whole conference. Later in the day the Chinese and Japanese were to renew their private negotiations over the re-turn of Shantung to China.
